

SafetyNet Static Stations

- Strategically placed in Safe or Muster Areas
- Solar Powered, Wind
- SBC (Single Board Computer)
 - Additional I/O for upgrades to add Voice and Security Cameras
- Windows Compatible XP, 2000
- Windows CE 5.0
- Augmented to existing Security Platform
 - Smart Cards
 - Magnetic Stripe
 - Bar Codes
 - Biometric Devices
 - Proximity Cards
 - RFID Tags, Tickets, Cards
- SafetyNet Custom Programming to exceed customer objectives and needs
- Redundant Battery Backup System (4 x factor of safety)
- System Designed for Climate and Region
- Web Based Application with Security Encryption
- FCC Certified Components
- Manufacturer's Warranty 1 Year
- Wireless Configurations;
 - Peer to Peer
 - Ad Hoc
 - Cellular GPRS, Modem
 - Mesh
 - Node Configurations
 - Satellite Communications
 - 802.11b/g LAN, WAN
 - Various RF Frequencies
 - Temporary Wireless Configurations (State Evacuations and Wide Spread Damage)

SafetyNet Mobile Handheld Device

- Can Be Utilized for Shelter In Place
- Triage
- Mobile Mustering Sites
- USB Host /Client (Cradle)
- Rechargeable Lithium ION Battery
 - Rechargeable Battery Backup
 - Low Battery Indicator
 - On/Off Switch and Automatic Shutdown
 - Backup for RAM Memory
 - Biometric Configurations
 - Multiple Identification Applications
- Additional I/O for upgrades to add Peripherals
- Windows CE 5.0 Compatible
- Augmented to existing Security Platform
 - Smart Cards
 - Magnetic Stripe
 - Bar Codes
 - Biometric Devices
 - Proximity Cards
 - RFID Tags, Tickets, Cards
- SafetyNet Custom Programming to exceed customer objectives and needs
- Handheld Designed for Climate and Region
- Web Based Application with Security Encryption
- FCC, RoHS Certified and Compliant
- Manufacturer's Warranty 1 Year
- Wireless Configurations;
 - Peer to Peer
 - Ad Hoc
 - Cellular GPRS, Modem
 - Mesh
 - Node Configurations
 - Satellite Communications
 - 802.11b/g LAN, WAN
 - Various RF Frequencies
 - Temporary Wireless Configurations (State Evacuations and Wide Spread Damage)
